

# Project #1

Nicoral Duncan

# Logo for My Website

Lets Travel to the Museum is a website that focus on the museums in the city of Washington D.C. Throughout my website I have pictures of these different museums so that you can see what they look like through images . This website can be for people between the age of 14-50 . I feel like once you are 50 you probably don't like to walk, and this require a lot of walking.

# Fonts and Colors

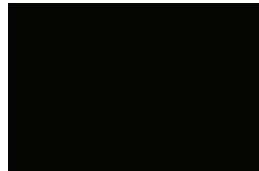

- Satisfy Font
- Prompt Font

#444444

#887144

#000000

#145383

## What Worked for my website

- Good Layout
- Good font selection
- Picture to catch my audiences attention
- Good color selection

## What needs to be worked on

- I wish I have a few more picture to show
- I should have included a few places to stay
